NLP Task (n=40)
Knowledge for ML Development: 37.5%
75%
Both: 7.5%
Knowledge for ML Deployment: 30%
development
deployment
Collected Data
Prepare Data
Prepare Learning
Train Model
Evaluate Model
System
Model
Use Model & System
Performance Data
Evaluate Model & System
• 3 WFs send data from "Prepare Data",
• 5 WFs send data from "Prepare Learning"
• 1 WF sends data from "Train Model"
• 23 WFs send data from "Evaluate Model"
focus on NLP-related ML, denoted as 100%
Actions via VA
62.5%
Offline Actions
12.5%
Future Actions
12.5%
No Action
12.5%
knowledge received by humans
Visualization & Interaction
Many Different Interaction Tasks
Any interaction, algorithms, statistics ?
